Synopsis			
Module Name	Competency Code*	Competency Name*	Description
Project Scope & Time Management	BSBPMG511	Manage project scope	This unit describes the skills and knowledge required to determine and manage project scope. It involves obtaining project authorization, developing a scope management plan, and managing the application of project scope controls.
	BSBPMG512	Manage project time	This unit describes the skills and knowledge required to manage time during projects. It involves determining and implementing the project schedule, and assessing time management outcomes.
Project Quality and Cost Management	BSBPMG513	Manage project quality	This unit describes the skills and knowledge required to manage quality within projects. It involves determining quality requirements, implementing quality control and assurance processes, and using review and evaluation to make quality improvements in current and future projects.
	BSBPMG514	Manage project cost	This unit describes the skills and knowledge required to identify, analyse and refine project costs to produce a budget, and to use this budget as the principal mechanism to control project cost.
Project HR and Risk Management	BSBPMG515	Manage project human resources	This unit describes the skills and knowledge required to manage human resources related to projects. It involves planning for human resources, implementing personnel training and development,

			and managing the project team.
	BSBPMG517	Manage project risk	This unit describes the skills and knowledge required to manage risks that may impact achievement of project objectives. It involves identifying, analysing, treating and monitoring project risks, and assessing risk management outcomes.
Project Integration Management	BSBPMG516	Manage project information and communication	This unit describes the skills and knowledge required to link people, ideas and information at all stages in the project life cycle. Project communication management ensures timely and appropriate generation, collection, dissemination, storage and disposal of project information through formal structures and processes.
	BSBPMG521	Manage project integration	This unit describes the skills and knowledge required to integrate and balance overall project management functions of scope, time, cost, quality, human resources, communications, risk and procurement across the project life cycle; and to align and track project objectives to comply with organisational goals, strategies and objectives.
Sustainability and Emotional Intelligence	BSBSUS501	Develop workplace policies and procedures for sustainability	This unit describes the skills and knowledge required to develop and implement a workplace sustainability policy and to modify the policy to suit changed circumstances.
	BSBLDR501	Develop and use emotional intelligence	This unit covers the development and use of emotional intelligence to increase self-awareness, self-management, social awareness and relationship management in the context of the workplace.
Leadership	BSBWOR501	Manage personal work priority and professional development	This unit describes the skills and knowledge required to create systems and process to organise information and prioritise tasks.

	BSBWOR502	Lead and Manage team effectively	This unit describes the skills and knowledge required to lead teams in the workplace and to actively engage with the management of the organisation.

The assessment objectives tested in these modules are broadly categorised in the following hierarchical order:

1. **Knowledge:** Exhibit memory of previously learned materials by recalling facts, terms, basic concepts and answers
2. **Comprehension:** Demonstrate understanding of facts and ideas by organizing, comparing, translating, interpreting, giving descriptions, and stating the main ideas
3. **Application:** Using new knowledge. Solve problems in new situations by applying acquired knowledge, facts, techniques and rules in a different way
4. **Analysis:** Examine and break information into parts by identifying motives or causes. Make inferences and find evidence to support generalizations
5. **Evaluation:** Present and defend opinions by making judgments about information, validity of ideas or quality of work based on a set of criteria

Specification Grid

The relationship between the assessment objectives and components of the scheme of assessment is as follows

Knowledge	Comprehension	Application	Analysis	Evaluation
20%	20%	20%	30%	10%

The assessment objectives are weighted to give an indication of their relative importance. They are not intended to provide a precise statement of the number of marks in particular skills.

Code	Name of the module	Assessment 1	Assessment 2
DPM 001	Project Scope and Time Management	50%	50%
DPM 002	Project Quality and Cost Management	50%	50%
DPM 003	Project HR and Risk Management	50%	50%
DPM 004	Project Integration Management	50%	50%
DPM 005	Sustainability and Emotional Intelligence	50%	50%
DPM 006	Leadership	50%	50%

Graduation Requirement:

In order to be awarded the Diploma of Project Management, a student must obtain at least a **Pass Grade** in all the modules within the eligibility period of 2 years from the date of commencement.
